PROFESSIONAL OVERVIEW

Senior Software Development Engineer & Test (SDET) with 8 years 9 months of expertise in Automotive Infotainment, Mobile & Web Applications Development, Test Automation and Quality Engineering. Skilled in managing end-to-end product development, automation frameworks, client interactions, defect management, and software quality assurance.

PROFESSIONAL ACHIEVEMENTS

• Senior SDET with Full Stack Development Experience.
• Successfully delivered multiple automotive infotainment projects for Polaris, Honda, and Caterpillar.
• Automated validation workflows resulting in significant reduction in manual testing effort.
• Led customer demonstrations, defect triage sessions, and release sign-off activities.
• Contributed to Android and Web applications development used across India, USA, and Netherlands customers.

WORK EXPERIENCE

SPECIALIST Bangalore, Karnataka, India
TATA ELXSI Jun 2025 – present

• Working on automotive infotainment validation and software development projects for OEM customers.
• Designing and executing automated test cases using ECU.Test, CANalyzer, and CAPL scripting.
• Validating Bluetooth, USB, Apple CarPlay, Android Auto, Media Playback, Navigation, and Connectivity features.
• Performing root cause analysis and defect investigation across Linux and Android-based infotainment platforms.
• Collaborating with global development teams for issue resolution and quality improvement activities.
• Participating in customer meetings, requirement analysis, and release sign-off activities.

DATABASE

- MySQL
- MongoDB
- Firebase

TOOLS

- Postman
- Jira
- Confluence
- ECU-Test Automation
- CANalyzer
- Apple Certification Test [CarPlay, MFI]

FRAMEWORKS

- Cordova/Ionic

CODE EDITOR

- VS Code
- Notepad ++
- ECU.Test Code

KEY SKILLS

- Application Developer
- Infotainment Testing
- Defect Tracking
- Automation Engineer

SENIOR ENGINEER
Bangalore, Karnataka, India

TATA ELXSI
Aug 2021 – Jun 2025

• Developed automation test solutions for automotive infotainment systems.
• Created CAPL scripts and CAN simulations for feature validation.
• Conducted end-to-end feature testing for Bluetooth, HFP, A2DP, MTP, USB, CarPlay, and Navigation modules.
• Integrated automation frameworks with ECU.Test and reporting tools.
• Coordinated with OEM customers and internal stakeholders for defect triage and release validation.

ANGULAR DEVELOPER
Coimbatore, Tamil Nadu, India

Zero Gravity Photographic Technologies
Jun 2021 – Aug 2021

• Developed and maintained scalable Angular applications with responsive user interfaces.
• Integrated RESTful APIs and implemented modular services for improved performance and maintainability.
• Performed unit and integration testing to ensure code quality and application reliability
• Collaborated with cross-functional teams to deliver scalable and efficient web solutions

ANDROID/WEB APPLICATION DEVELOPER
[Associate Manager]
Coimbatore, Tamil Nadu, India

Helpful Balance India Private Limited
Jan 2020 – Jun 2021

• Developed and delivered scalable Android and web applications aligned with business requirements.
• Collaborated with cross-functional teams to enhance user experience and application functionality.
• Improved application performance through code optimization, reviews, and best practices.
• Implemented CI/CD workflows and backend integrations to support efficient software delivery.

ANDROID/WEB APPLICATION DEVELOPER
[Associate Trainee]
Bangalore, Karnataka, India

Fouren Technologies
Nov 2017 – Jan 2020

• Developed Android and web application features to improve functionality and user experience.
• Performed testing, debugging, and performance optimization to ensure application reliability.
• Collaborated with teams to deliver high-quality solutions within project timelines.

COURSES

- **Machine Learning & Python,** SimpliLearn

EDUCATIONS

- **Master of Computer Applications [MCA],**
  Bharathiyar University,
  Coimbatore, Tamil Nadu
  Aug 2018 – May 2020

- **Bachelor of Computer Science [B.Sc],**
  Manonmanium
  Sundaranar University,
  Tirunelveli, Tamil Nadu
  Apr 2014 – Jun 2017

LINGUISTIC PROFICIENCY

TAMIL, ENGLISH, MALAYALAM, KANNADA

HOBBIES

I love

- **Sketching**
- **Trekking**
- **Hiking**
- **Technology Exploration**
- **Photography**
- **Specific playlists**

PROJECT DETAILS & CLIENTS

POLARIS [Automation Engineer]
Automated infotainment and connectivity features including Bluetooth (A2DP, HFP), USB, MTP, Apple CarPlay, Gauges, and Navigation for Polaris on-road and off-road vehicles. Supported validation for Indian, Slingshot, ATV, ORV, and Snowmobile platforms.

CAT (CATERPILLAR)
Developed and monitored terrain control applications using CAN communication and remote joystick operations for heavy machinery management.

HONDA
Tested and validated dashboard, navigation, camera, and infotainment features for automotive platforms.

ZERO GRAVITY PHOTOGRAPHY
Web-based application for employee tracking, event booking, customer management, and automated event reminders.

COUPALS (A CLONE OF TINDER APP)
Mobile application for partner discovery, date booking, chat, and location-based profile matching.

AGILE MEDICARE
Web-based healthcare platform for pharmacies, doctors, and medical representatives with video consultations and chat features.

Be Fit Inside (Physical Fitness)
Mobile and web application for fitness planning, health management, and subscription-based services.

SPEECH-TO-TEXT CONVERSION
Simple Application for Speech to Text Conversion.

SCHOOL MANAGEMENT
School management platform enabling parent-teacher communication, child progress updates, and event notifications.

VIDEO CONFERENECING APP
Built a mobile application with video-based interactions and instant messaging features.

DIKSHA
Developed DIKSHA, a SAMA CHEER KALVI education platform with online learning, parent-teacher communication, and appointment management features.

BSNL GOVT.

Built an Android platform integrating drone telemetry, geo-location, and field service management for fiber cable maintenance.

ISU (International School Utrecht)

Developed the ISU platform for parent-teacher communication, student updates, and appointment management.

FACILITY (INDIA & USA)

Developed an Android application for employee onboarding, task assignment, QR-based attendance, and email notifications.

VAN ALOM (ALPHA OMEGA)

Developed an enhanced VAN-ALEM SCHOONMAAK solution with QR code scanning and mobile-enabled operational management.

VAN-ALEM SCHOONMAAK

Built the Utrecht, Netherlands platform for employee task management, client communication, location mapping, and operational coordination.

300 STARTUPS WEBSITES FOR AGNI

Built the 300 Startups platform, associated with Agni College of Technology, Chennai, to support government-backed agriculture, road safety, and water conservation initiatives.

AGNI

Developed AGNI, a web-based MIS (Management Information System) for Mr. Agnishverar, Founder of Agni College of Technology, enabling task assignment, access control, and team collaboration.

AROMA

Developed AROMA, a food court management application for Tech Mahindra, Hyderabad, enabling food ordering, digital payments, e-Wallet integration, and order tracking.
